

Graded before it is packed

Sorted at the hub each morning. Bruised or over-ripe fruit never reaches your basket.

Bought after you order

We buy against confirmed orders at dawn — nothing sits in a cold room waiting to be sold.

Delivered free

On every basket over ₹699. No membership, no hidden charges.

RATES AS OF 10 SEPTEMBER 2026

Fruit moves with the market more than anything else we sell — a wet week or a festival can shift a rate overnight. **These are today's prices, not a fixed list;** ask before a large order and we will quote that morning's rate.

EVERYDAY

The fruit most households reorder every week.

Banana kela / arati pandu	Ripened naturally, not gassed	6 pcs	₹60
Papaya boppayi	Whole fruit, ripe to cut the same day	1 pc (~1 kg)	₹68
Thai Guava thai amrud / jaama kaya	Thai variety — large, crisp, fewer seeds	1 kg	₹220
Watermelon tarbooz / puchakaya	Whole. Cut halves on request	1 pc (~2 kg)	₹80

CITRUS

Only imported navel oranges at the moment — local santra is strongly seasonal and we would rather not list it than substitute.

Imported Orange navel orange / videshi santra	Large, seedless, easy to peel	1 kg (~4 pcs)	₹350
Sweet Lime mosambi / battaayi	Mosambi — for juicing by the kilo	1 kg	₹120

PREMIUM

Priced by what we actually paid that morning, which is why these move most.

Apple seb	Graded, uniform, packed with the stem on	1 kg	₹250
Pomegranate anar / danimma	Heavy for their size — the way you would pick them	1 kg	₹150
Grapes angoor / draksha	Seedless, washed and packed cold	500 g	₹95

WELLNESS

Amla indian gooseberry / usiri kaya	Indian gooseberry — for juice, pickle or murabba	250 g	₹32
---	--	-------	-----

BULK BOXES

The same fruit in a box, below the per-kilo rate. No membership, delivered free.

Banana kela / arati pandu	13% below the per-unit rate	3 dozen (36 pcs)	₹312
Apple seb	13% below the per-unit rate	5 kg box (~20 pcs)	₹1,090
Sweet Lime mosambi / battaayi	13% below the per-unit rate	5 kg box	₹520
Pomegranate anar / danimma	13% below the per-unit rate	3 kg box	₹390

Why the price moves

Fruit is the most volatile thing in the catalogue. Rates shift with arrivals at the market, with rain and heat, and with festival weeks.

We publish what we paid that morning rather than an averaged list price that is quietly wrong in both directions.

Graded, and told honestly

Presentation-grade fruit goes to households and to kitchens that asked for it; second-grade goes into discounted baskets rather than into your order.

If something arrives below standard, send a photo on WhatsApp — refunded or replaced the next morning, no argument and nothing to send back.

For kitchens

- Wholesale rates by volume
- Weekly locked pricing
- One consolidated GST invoice
- Choose your grade per item
